< Online Registration | Existing Student Enrollment

This editor is to update data for students that are currently enrolled in the District. You may add new students that are registering for the selected year later in the process.

If your child is not listed below for the Annual Update, then final placements have not yet taken place.

If this is the case for your student, please return to the Annual Update process at the end of the July 26th week when placements have been completed. At this time your student should be listed. If you do not see your student listed, please contact your resident school office staff to get more information. Do **NOT** continue with the Annual Update until you see all of your students listed below.

You can, however, continue with fall registration activities for those students you see listed below.

Thank you.

NOTE: Only use the "Click here to go to New Student Enrollment" if you **have not** have not gone through the enrollment process for the student you wish to enroll.
